btw, he'll be modest -- but it's Danny who deserves the credit for making this happen.

**Subject:** Map Viewer of our data

Hey everyone,

We worked with our friends in GIS to get a public-facing version of the map. This pulls from the approved, QA/QC'd public data we've already posted. It's a visual tool to help users look at our data in a meaningful way. We've added it to the top of our newly published data page that has all the data listed in reverse chrono order.
